

Using the Elise System

- Open a new tab in your browser and type elise.strautmann.com
- Make sure that you click the "Always translate to English" tab or choose "English" in the drop-down box at the right hand side. You can't Login as this is only available to Authorised Strautmann dealers.
- Click on the "Spare Parts Catalogue", choose the Product Group that you want eg. "Loading Wagons", "Mixer Feeders", etc.
- Choose the "Machine Type", eg. "Super Vitesse", "Giga-Vitesse", etc, then choose the "Model / Machine", eg "Giga-Vitesse", Giga-Vitesse CFS", etc and navigate your way into the area of the machine that you want to look at.

It will give an exploded view of that area and beneath show you the part numbers and quantities of each part needed. Click "Home" if you want to go back to the start and begin again. Don't worry, you can't break it!

If you need assistance in how to use the Elise Online Parts Catalogue, please give Mike Little a call on (027) 2504182.
